

MANAGEMENT/ADMINISTRATION

Registered Business Analyst (RBA)

Business analysis is a critical process that drives the project life cycle. The business analyst, acting as an intermediary between the business and technical communities, analyzes competing business needs and develops plans to implement the projects that support stakeholder objectives. In this course, you gain foundational knowledge of the role and function of the business analyst. You also learn to apply a clearly defined business analysis framework.

A strategic MBA refresher with an intensive coverage on innovative and high-powered graduate level finance, business analysis, and leadership topics. Designed for the busy executive or upcoming management graduate. Includes focus on competitive intelligence and benchmarking.

Certification Issued By
